 **ABRO®**

A TRUSTED NAME WORLDWIDE®

ABRO's World Headquarters located in South Bend, Indiana, U.S.A.

ABRO's state of the art warehouse and shipping center provides ample storage space for ABRO products being prepared to travel around the world.

In 2019, ABRO celebrated 80 years of serving the world.

PRESIDENT'S AWARDS

ABRO received the E-Award in 1991 and the E-Star Award in 2005.

The President's E-Star Award recognizes continued superior performance in increasing or promoting exports.

Only recipients of the E-Award are eligible and the level of performance must exceed that for which the E-Award was given.

WELCOME

For over three quarters of a century, ABRO has consistently stood for quality and value. During the past 82 years, it has been ABRO's commitment to our distributors and the people who use our products that has fueled ABRO's growth. As we look to the future, we will never forget the foundation on which our success has been built.

At the heart of ABRO is our World Headquarters located in South Bend, Indiana, U.S.A. It brings together our dedicated sales managers with logistics experts in order to ensure that the right product mix arrives when and where it is needed.

Our sales managers are supported by highly professional accountants, designers and brand protectors. Each member of ABRO's dedicated staff works together seamlessly to allow ABRO to compete, and win, against the biggest companies in the world. Certainly the most important part of ABRO is our worldwide team of dedicated and energetic distributors. Located throughout the world, ABRO distributors are independent entrepreneurs who have joined together to form one of the most powerful distribution systems in the industry.

Not content, like many of our competitors, to only distribute in a few easy to access locations, ABRO reaches into over 185 countries and territories around the globe. Wherever there is a market to be served, you can be assured that ABRO has a partner working hard, day and night, to serve it.

ABRO distributors range from long established companies who hold a commanding position in their home countries, to new and energetic startups that consist of little more than a single person's dreams and determination. Each distributor carries with them the collective experience of the ABRO family; and each is entrusted to protect the reputation for reliability of the ABRO name. To this end, we make sure that each distributor receives exactly the type and amount of support they need in order to continue to grow ABRO into the successful brand it is today.

As ABRO enters our eighth decade of business, we recommit to protecting the values that brought us to this point. We pledge to expand our horizons to ensure that we continue to serve our partners and customers well. Not holding onto the past, but not forgetting it either, ABRO prepares to reach even greater heights and to enrich its family of distributors even more.

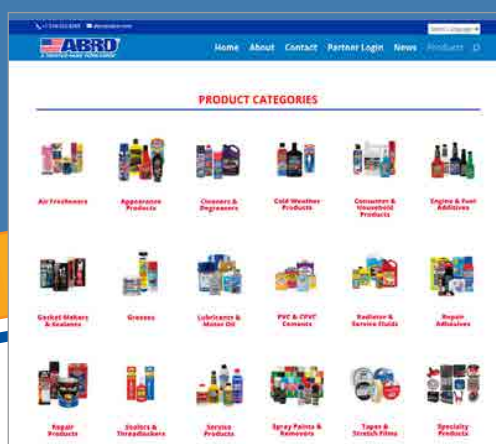

Now, more than ever, ABRO is....

A TRUSTED NAME WORLDWIDE®

ABRO products are displayed at tradeshows around the world. ABRO participates at the AAPEX Show in Las Vegas, USA, and the Automechanika in Frankfurt Germany.

ABRO is Meeting the Latest
Requirements and Energy Efficiency
Regulations in the Industry

LUBRICANTS

ABRO® - The American Line With Official Approval from the American Petroleum Institute-API

Always look for the official API seal on your oils.

ABRO® motor oils meet American Petroleum Institute's latest gasoline engine oil standard: API Service Category SP. Introduced in 2020, API SP represents a great improvement over API SN category, released 10 years earlier. API SP approved oils are formulated to meet the increasing demands of modern engine technologies. ABRO® motor oils are formulated with quality base oils and a superior additive package. They provide superior lubrication and engine protection under all driving conditions. Their low friction formulas help improve gas mileage and protect engines against rust, corrosion, and varnish build-up.

Advantages of ABRO® API SP oils:

- Protects engines under all driving conditions
- Improves gas mileage
- Protects against rust, corrosion, and varnish
- Resists thermal breakdown
- Lowers friction and reduces wear
- Provides longer engine life and improves performance

Some ABRO® API SP motor oils also meet ILSAC GF-6A standard:

- Protects the emissions control system
- Specially formulated to protect gasoline direct-injection engines (GDI and TGI) against Low Speed Pre-Ignition (LSPI), a potentially catastrophic phenomena that occurs in GDI and GDI engines
- Advanced protection against timing chain wear
- API Resource Conserving Certification: approved in rigorous fuel economy, emissions control and engine protection tests

ABRO® API SP motor oils can be use in Gasoline, Ethanol, CNG, and Flex Fuel Engines.

ABRO® Premium Diesel and Mixed Fleets Motor Oils

ABRO® Premium Diesel and ABRO® Diesel engine oils are ideal for use in mixed fleets, as they meet both API's and ACEA's* specifications for both Diesel and Gasoline engines. They can be used on highway applications for light and heavy trucking, as well as in other applications such as construction, agriculture, and quarrying. ABRO® diesel engine oils meet various OEM requirements.

* ACEA - European Automobile Manufacturers' Association

TRANSMISSION FLUIDS

ATF GLOBAL

AUTOMATIC TRANSMISSION FLUID - FULL SYNTHETIC

ATF Global is designed for automatic transmissions of all North American, European and Asia-Pacific-made vehicles. Global ATF provides exceptional oxidation, wear, frictional stability and anti-shudder properties. Also designed to deliver premium performance in older transmissions. Available in Red and Amber color.

PART NO. AT-180DX-VI-QT

1 QT. 12/CASE

PART NO. AT-180DX-VI-GL

1 GAL. 3/CASE

ATF TYPE A

AUTOMATIC TRANSMISSION FLUID

ATF Type A is a quality economical fluid. It is formulated from select base oils with a special additive to suppress foam formation. It contains red dye as a leak detector. Type A Automatic Transmission Fluid provides straight mineral oil lubrication and can be used when a lubricant of this type is recommended.

PART NO. AT-160

1 QT. and 1 Liter 12/CASE

ATF DEXRON III

MULTI-PURPOSE AUTOMATIC TRANSMISSION FLUID

Created for electronically controlled transmissions, this product may be used in GM automatic transmission units that require the use of Dexron® IIIH, Dexron® IIIG, Dexron® IIE, Dexron®II, and Dexron® fluids and is qualified Ford Mercon® ATF. Further, it meets the performance requirements for Allison Transmission Division C4, and major hydraulic pump manufacturers' requirements for anti-wear hydraulic fluids. Multi-Purpose ATF provides excellent friction stability, oxidation, anti-wear properties and low-temperature fluidity desired for most automatic transmissions.

** Currently not available for mixed orders from warehouse.
Ships directly from factory.*

PREMIUM ATF DEXRON VI

AUTOMATIC TRANSMISSION FLUID - FULL SYNTHETIC

ABRO® Premium ATF DEXRON VI is a high performance, 100% synthetic automatic transmission fluid that meets the demanding standards of DEXRON VI (General Motors) and MERCON LV (Ford). It is indicated for use in all vehicles and applications that recommend DEXRON VI or MERCON LV fluids. It is also suitable for hydraulic calls and hydraulic systems that expand fluids of the type ALLISON C-4, C-3 and CATERPILLAR TO-2.

PART NO. AT-DEX-VI-1L

1 Liter 12/CASE

CVT FLUID

CONTINUOUSLY VARIABLE TRANSMISSION FLUID FULL SYNTHETIC

ABRO® CVT Fluid is a full synthetic automatic transmission fluid specifically formulated for today's technologically sophisticated variable transmissions. This product eliminates the need to stock multiple, limited OEM brands. CVT Fluid has equal, and in most cases, better performance than the most common North American CVT Fluids being supplied by leading OEMs. CVT Fluid provides engineered anti-shudder performance for smooth transfer of power, exceptional anti-oxidation and anti-wear protection in highly sophisticated variable transmissions.

PART NO. AT-CVT-QT

1 QT.

12/CASE

DCT FLUID

DUAL CLUTCH TRANSMISSION FLUID FULL SYNTHETIC

ABRO® Dual Clutch Transmission Fluid is designed to provide extreme pressure protection in high performance DCT vehicles. It is manufactured with the highest quality synthetic base oils and performance additives producing improved shifting proficiency at all ambient temperatures. Multi-Vehicle DCTF viscosity protects against wear while simultaneously improving fuel economies.

** Currently not available for mixed orders from warehouse.
Ships directly from factory.*

PART NO. AT-DCT-QT*

12/CASE

GEAR LUBRICANTS & HYDRAULIC OILS

GEAR LUBRICANTS

ABRO® offers a range of gear lubricants that meet the toughest industry specifications.

ABRO® GL-5 Full Synthetic and Synthetic Blend Gear Oils are premium quality gear oils for transmissions and final drives. GL-5 Gear Oils are premium quality multi-purpose gear lubricants which provide superior performance that is obtained through the use of quality base oils and a select extreme pressure additive system.

ABRO® GL-1 Gear Oils are manufactured with high quality base stocks to provide outstanding oxidation stability for long service life. This oil is inhibited against foaming and does not contribute to corrosion or wear of yellow metals, such as brass or bronze.

PART NO. GL-1-90-1QT

1 QT.

12/CASE

HYDRAULIC OILS

ABRO® Hydraulic Oils were developed as an economical, general purpose anti-wear, rust, corrosion and oxidation inhibited oil.

ABRO® Hydraulic Oils are suitable for use where service requirements are normal to moderate and long-term heavy-duty protection is not critical.

ABRO® Hydraulic Oils are recommended for use in hydraulic systems utilizing radial or axial piston, vane, gear and other types of pumps, where quality anti-wear hydraulic oil is required.

MOTORCYCLE & SMALL ENGINE OILS

MOTORCYCLE OIL

FULL SYNTHETIC

ABRO® Full Synthetic Motorcycle Oil is specially designed to protect motorcycle engines. It is formulated with full synthetic base stock and a premium additive package chosen for exceptional wear protection, sludge, varnish resistance, and thermal stability. Can be used in all 4-stroke motorcycle engines, including racing, high performance, street, and off-road motorcycles. Meets performance requirements API SL/CF and JASO MA, MA2.

PART NO. MC-FS-20-50-SL-CF-JASO-MA2-QT

1 QT.

12/CASE

MOTORCYCLE OIL

ABRO® Motorcycle Oils can be used in all 4-stroke motorcycle engines, including racing, high performance, street, and off-road motorcycles. Their multi-grade formula allows easier cold starts while maintaining high temperature film strength and provides excellent protection against thermal and viscosity breakdown. Meets or exceeds API SL and JASO MA2.

PART NO. MC-20-50-SL-QT

1 QT.

12/CASE

2-STROKE ENGINE OIL

Designed for small engines to provide excellent engine protection in both variable ratio injection systems and fuel/oil pre-mix applications. It is pre-diluted to provide easy mixing. Formulated to ensure fluidity and miscibility at low temperatures. 2-Stroke Engine Oil is specifically designed for use in newer high performance air-cooled engines, but can be used in any air-cooled engine where low ash oils are recommended. Our premium formulation is fully compatible with low octane, oxygenated/gasoline fuels.

API APPROVALS AND BADGES

API CLASSIFICATION

The API classification, created by the American Petroleum Institute, is the main performance standard in the lubricant industry. Oils are classified according to their performance in several categories, such as wear protection, emissions control, fuel economy, deposit formation, among others. Products with API approvals and seals have passed the most rigorous tests and meet the most demanding performance levels in the category. According to the American Petroleum Institute itself: "The use of API seals is a guarantee by the merchant that their licensed oils are in compliance with the requirements set out in API 1509 and the API license application. The use of seals also identifies the oil trader as a commercial organization responsible for the integrity of brand name and for representing the branded product on the market."¹

API CERTIFICATION MARK, ALSO KNOWN AS THE "STAR-BURST"

An oil displaying this mark meets the current ILSAC GF-6A engine protection standard and fuel economy requirements of the International Lubricant Specification Advisory Committee (ILSAC), a joint effort of U.S. and Japanese automobile manufacturers. Automobile manufacturers recommend oils that carry the API Certification Mark "Starburst."

API SERVICE SYMBOL, ALSO KNOWN AS THE "DONUT"

- 1. Performance Level** Motor oils designed for cars, vans, and light trucks with gasoline engines fall under API's "S" (Service) categories. Motor oils designed for heavy-duty trucks and vehicles with diesel engines fall under API's "C" (Commercial) categories. Please see the Gasoline Engines and Diesel Engines charts on the next pages for descriptions of current and obsolete API service categories.
- 2. Viscosity Grade** The measure of an oil's ability to flow at certain temperatures. Vehicle requirements may vary. Follow your vehicle manufacturer's recommendations on SAE oil viscosity.
- 3. Resource Conserving** "Resource Conserving" applies to oils intended for gasoline engine cars, vans, and light trucks. Widespread use of "Resource Conserving" oils may result in an overall savings of fuel in the vehicle fleet as a whole.
- 4. Multiple Performance Levels** Oils designed for diesel engine service might also meet gasoline engine service. For these oils the designation is "C" category first followed by the "S" category. "C" category oils have been formulated primarily for diesel engines and may not provide all of the performance requirements consistent with vehicle manufacturers' recommendations for gasoline fueled engines.
- 5. PLUS Classifications** API currently licenses two PLUS classifications for use in the lower portion of the API Donut: CI-4 PLUS and SN PLUS. CI-4 PLUS identifies oils formulated to provide a higher level of protection against soot-related viscosity increase and viscosity loss due to shear in diesel engines. When originally introduced, CI-4 PLUS identified CI-4 oils meeting a higher level of performance. CK-4 and CJ-4 oils include all CI-4 PLUS performance requirements. When originally introduced, SN PLUS identified API SN oils meeting a higher level of performance. API SP oils include all SN PLUS requirements.

ABRO Offers the Perfect Tape
for Every Application. Strong,
Flexible and Durable

TAPES & STRETCH FILMS

TAPES & STRETCH FILMS

ABRO's masking, polypropylene and filament tapes are available in a variety of larger sizes for converting applications. All of our jumbo rolls are manufactured to rigid specifications allowing the overseas converter to efficiently process the jumbo rolls into cut rolls. Complete specifications are available upon request.

AUTOMOTIVE MASKING TAPE

Cured Adhesive System
Minimizes Adhesive Residue on
Painted Surface
Non-USA Origin

PART NO. 2123Y

1" x 50 Yards

36/CASE

*Additional Widths/Lengths Available for Direct
Shipment from Factory*

POLYPROPYLENE PACKAGING TAPE

Reinforced to Resist Tearing and Splitting
Choice of Hot Melt or Acrylic Adhesive in Tan
or Clear, Additional Tape Widths and Lengths
Available; Non-USA Origin

PREMIUM GRADE UL181A-P & UL181B-FX ACRYLIC BASED ALUMINUM FOIL TAPE*

Acrylic Adhesive coating System Meets UL 181A-P and UL 181B-FX Standards For Duct Closure Systems. Used as a Vapor Seal to ensure Integrity of Seams and Joints on Fiberglass Duct Board and Flexible Duct Systems

PART NO. 4000

2" x 40 Yards 24/CASE

PART NO. 4000

3" x 40 Yards 16/CASE

UL CLASSIFIED ALUMINUM FOIL TAPE

Seals Fiberglass Board Duct Joints Wrinkle-Free, Conforms to Surface Irregularities

PART NO. 2290

2" x 40 Yards 24/CASE

PART NO. 2290

3" x 40 Yards 16/CASE

UL CLASSIFIED FSK FACING TAPE

Reinforced for Sealing Foil-Faced Duct Insulation Seams, Blends with Primary Facing for a Strong, Finished Look

PART NO. 3450

2" x 40 Yards 24/CASE

PART NO. 3450

3" x 40 Yards 16/CASE

* Green/Yellow Striped is currently not available for mixed orders from warehouse. Ships directly from factory.

PVC ELECTRICAL TAPE

Self-Bonding, Insulating Wrap for Low Voltage Wire and Cable Applications; Available in Black, White, Green, Red, Yellow, Blue and Yellow & Green Striped, Non-USA Origin

PART NO. ET-912

19mm x 10 Yards 500/CASE

UL CLASSIFIED PVC ELECTRICAL TAPE

Insulating Wrap Suitable for Use up to 600V and 80°C, Available in Black; Non-Flammable Non-USA Origin

PART NO. ET-914

0.17mm x 18mm x 20 Yards 250/CASE

ROOF TAPE - FLASHING TAPE

Self Adhesive/Roofing/Waterproofing Membrane with a Reflective Aluminum Surface; For Roofing, Waterproofing, Patching and Repair, Reflects Heat to Keep Interiors Cool and Reduces Utility Bills, Non-USA Origin

PART NO. RT-6-60-33

6" x 33ft x 60mil 4/CASE

PART NO. RT-4-60-33

4" x 33ft x 60mil 6/CASE

* Currently not available for mixed orders from warehouse. Ships directly from factory.

UL CLASSIFIED PVC ELECTRICAL TAPE*

Insulating Wrap Suitable for Use Up to 600V and 80°C,
Available in Black, White, Blue, Green, Red, Yellow; Non-Flammable
Non-USA Origin

PART NO. ET-914

0.17mm x 18mm x 20 Yards 250/CASE

COLOR DUCT TAPE

Perfect for Coding and Identification,
Black, White, Silver, Blue, Green, Red, Yellow and Orange
Non-USA Origin

PART NO. 6620

48mm x 10 Yards 54/CASE

* Currently not available for mixed orders from warehouse. Ships directly from factory.

ANTI-SLIP TAPE

Prevents Slipping on Steps, Ladders, Ramps and Boats, Sticks on Wood, Metal and Smooth Concrete, Available in Black, Yellow/Black, or Grey With Fluorescent Night Glow Strip,
Non-USA Origin

PART NO. AS-60

24mm x 5 Yards	144/CASE
48mm x 5 Yards	72/CASE
24mm x 20 Yards *	100/CASE
48mm x 20 Yards *	24/CASE

* Currently not available for mixed orders from warehouse. Ships directly from factory.

DIAMOND GRADE REFLECTIVE TAPE*

For Trucks, Emergency Vehicles, Buses, Trailers, Bollards, and Barriers, Superior Luminescence at Daytime and Night
ABRO Logo Imprinted, Non-USA Origin
