July 3, 2024

ABRO Industries, a Global Leader in Automotive Aftermarket Chemical Products, is thrilled to announce its participation in the NHRA Contingency Program, starting our new commitment to the drag racing community and supporting passionate racers across the nation.

The NHRA Contingency Program represents an exciting opportunity for ABRO Industries to connect directly with racers who embody the spirit of competition and excellence that defines drag racing. By joining this program, we aim to enhance the experience of participants while demonstrating our dedication to the sport.

Through our participation in the NHRA Contingency Program, ABRO Industries will offer valuable rewards and incentives to competitors who display our designated logos on their race cars and use our ABRO products during NHRA-sanctioned events. These rewards not only acknowledge their achievements but also strengthen our bond with the racing community. We look forward to fostering lasting relationships with racers and fans alike through this partnership.

In essence, our participation in the NHRA Contingency Program represents more than just a sponsorship opportunity—it signifies our dedication to becoming a trusted partner and supporter of the NHRA racers and fans, along with strengthening our brand's presence in the racing community. We are excited about the journey ahead and look forward to celebrating many victories together on and off the track!

For more information about ABRO products and our involvement in the NHRA Contingency Program, please visit [abro.com](http://abro.com) and find us at [nhra.com](http://nhra.com) on the NHRA Contingency Partners list.

Sincerely,  
ABRO INDUSTRIES, INC.
